related to work on powered systems
occurred in the Group
in the last 10 years.

WORK ON DE-ENERGIZED PROCESS SYSTEMS

Location _____ Date _____

Observed company _____ Permit N° _____

YES NO N/A

POINTS TO BE CHECKED

1 Has the «Safety Green Light» been carried out?

2 Is the isolation certificate available in the Permit To Work documentation, is it updated and validated?

3 Has the circuit or equipment on which the work is to be carried out been identified in the field by an Operating Authority Representative and in the presence of the Performing Authority Representative?

4 Are personnel performing the activity wearing task-specific PPE and, in an area with a potentially explosive atmosphere, non-sparking tools?

5 Are isolation devices installed in the positions specified on the approved isolation diagram / plan?

6 Have isolation devices been locked and tagged?

7 Has the absence of energy been demonstrated by an Operating Authority Representative in the presence of a Performing Authority Representative?

Compliance rate (Nb YES/applicable points): _____ / _____ (_____ %)
