

# WORK AT HEIGHT

1 Safety Green Light

**12 fatalities**  
related to work at height  
occurred in the Group  
in the last 10 years.

# WORK AT HEIGHT

EP Branch - March 2020 - REV 0

Location \_\_\_\_\_ Date \_\_\_\_\_

Observed company \_\_\_\_\_ Permit N° : \_\_\_\_\_

YES NO N/A

## POINTS TO BE CHECKED

**1** Has the "Safety Green Light" been carried out?

**2** Do all personnel fasten the chin strap fitted on safety helmets?

**3** When the safety harness is required, is it worn, adjusted and tied-off to a pre-defined anchor point (working outside fixed barriers, on a MEWP - Mobile Elevating Working Platform, etc.)?

**4** Is the potential falling path clear of obstructions when working with a safety harness?

**5** Is a recovery plan available if someone falls?

**6** Is the work crew aware that team members wearing a harness should remain visible or audible?

**7** Has safe clearance from potential hazards been ensured (powerlines, coactivity)?

**8** Are gaps, holes or fragile areas in floorings, guard rails and roofs, identified and / or protected?

**9** Are equipment and tools secured to prevent them from falling and has the zone below been marked off?

**10** Has the scaffold been inspected and declared safe for use?

**11** Is the work crew aware that if personnel are using a deployed MEWP or a mobile scaffold, then it must not be moved?

Compliance rate (Nb YES/applicable points): \_\_\_\_\_ / \_\_\_\_\_ ( \_\_\_\_\_ %)
